

Site Acquisition Criteria

GetGo is actively pursuing locations possessing the following characteristics:

Traffic Counts

Require 20,000+ vehicles per day at the subject intersection.

Ingress/Egress

Convenient accessibility via curb cuts from both primary and secondary streets.

Signalized "Hard Corners"

Prefer the far corner ("Through the light, on the right") on the primary street.

Lot Size

Minimum of 1.5 acres with 250' frontage to the primary street. Site should be able to support full size convenience store, ten MPD's, and "WetGo" car wash.

Full Service Locations

Must be able to operate 24/7 with beer/wine (in Ohio) and car wash.

Trade Area

Site must be located in a high traffic commercial area with retail, office, and other commercial traffic generators behind or nearby. Both daytime traffic and strong residential backup are essential for success.
